Account Services – What is Different?

Navigation Updates

The **Account Services** menu is updated so only key options are visible.

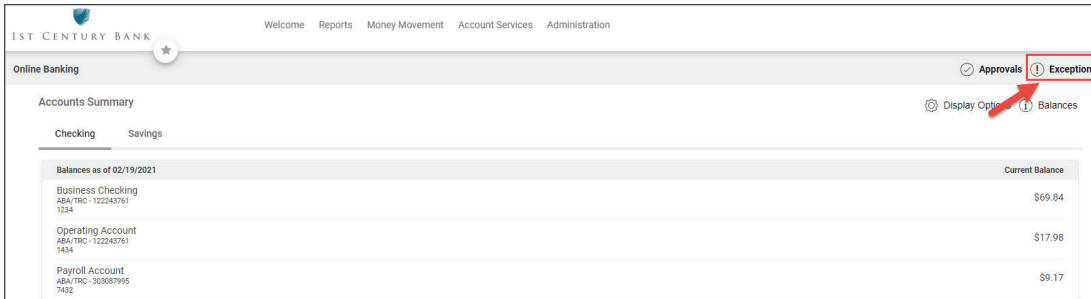

Pages are cleaner, and updated navigation makes it easier to find desired functions. Service options are reorganized so they appear across the top of the page.

Exceptions

NOTE: This section may vary based on your company's services.

Positive Pay and **ACH Positive Pay Exceptions** are now accessible by clicking the **Exceptions** button at the top of each page instead of under individual services. This makes it easier for users to access all pending exceptions in one location.
